HAPPY LOHRI

R.I. DIRECTOR SPEAKS

Let's serve through our vocation

Dear Rotarians,

The happiest people I know are the ones who have discovered the true meaning of happiness. Much of a person's abilities have to do with his/her understanding their vocation, and success in their chosen field brings them more happiness. The real secret of happy and successful people lies in their applying ethics in daily life in everything they do. He profits most who serves best. People who follow the Four-way Test know the meaning of truth and its successful application in their lives. Look for opportunities, in your vocation, to serve others. Many people work hard for 30 or 40 years of their career but put little thought in to what they will do when that work is done. Our call to work remains even if all of our financial needs are met in retirement. In fact, in retirement we will have more time than ever to serve others. We must take the initiative now to throughly plan how to avoid idleness, and remain active in the years following our retirement.

Some months ago, a Rotarian sent me a story about a 76-year-old librarian Palam Kalyanasundaram. No words can describe the beauty of this man's kindness and generosity. Kalyanasundaram, who worked as a librarian for 30 years, is a gold medallist in Library Science and also holds a Masters in Literature and History. Apart from working as a librarian, he has also worked as a waiter in a hotel for two meals a day and a small salary.

Kalyanasundaram donated his entire monthly salary for the welfare of orphans till his retirement and continues to donate his monthly pension to the needy. He was motivated and inspired by this mother to help the poor and needy. He believed in the doctrine : Don't bother about how you speak. Strive to make others speak well about you, Here comes the interesting parts of his life. He was awarded by an American organisation a very large sum in recognition for his work to benefit orphans. But he donated the entire amount to charity. Kalyanasundaram donated everything he had and subsisted on earnings from doing odd jobs. I truly admire this gentleman for what he has done to help those in need. His immense kindness has created awareness among many people. We will take him as an example and serve through our vocations.

This American Association honoured Kalyanasundaram as the Man of the Millennium and presented him with a sum of 30 crore which he donated to charity. We learn from such role models. Let us, through Rotary, improve the lives of others.

Wishing you all a very happy and prosperous 2018 !

From Pen of the Editor.....

Rotary is a conglomeration of persons belonging to different cross-sections of society. Rotarians hail from different callings and different professions. Rotary envisages a world which is peopled with persons who are leaders of their professions. The very idea of classification was conceived with this purpose in mind. That is why the classification committee is formed with a view to accord membership to the applicant only after making a proper appraisal of his qualifications. The member, according to the directive principles of Rotary, should be a renowned person of his profession. He must be dedicated to his profession. His main aim should be to encourage and foster the ideal of service as a basis of worthy enterprise and in particular to encourage and foster the development of acquaintance as an opportunity for service. A Rotarian has to set high standards in business and profession since Rotary recognises the worthiness of all occupations. Hence the importance of professional excellence.

The Four-Way Test of Rotary, which emphasizes upon service above self and dreams of building bridges of friendship through mutual understanding and fellowship, is the touchstone method of Rotary which helps in having the best and the cream of the upper fulcrum of every profession for if we have the best of every profession we will be able to give our best to the society. This will undoubtedly facilitate our task of solving the conundrum of several gigantic problems with which our society is confronted. The meeting of the best minds and best brains with a compassionate heart will enable us to give our best to society.

I would, therefore, exhort fellow Rotarians to build relationships of trust and respect.

Befair! Behonest! Strive for justice!

Leave a monument of good faith and trust and remember that,

It is not the honour that you take with you,

But the heritage you leave behind.

satisfaction and here begins the
new year 2018 with some more

zeal, commitment and dreams to fulfill ahead. Let's make
our efforts more intensive, enormous and fruitful in
Making a Difference.

The 48th District Conference DISCON is scheduled for
2nd to 4th Feb at Kanpur. Me and DG Vinay are looking
forward to host all the Rotarians and Spouses at Discon

Kanpur. The presence of spouses with Rotarians indeed adds charm to the event and make it more purposeful.

Pt. Jawahar Lal Nehru said, “When women move forward, the family moves forward, the Nation moves forward”. For years family in Rotary has been a great emphasis. District Conference provides the Rotarians a platform to get together. Involvement and participation of children in the Rotary enthuse early in them an attitude of caring, sharing, humanity and service. During “DISCON2018” we have planned very attractive programs of fun and entertainment for ladies and kids. So come and be a part of DISCON.S

Enjoy life and enjoy Rotary.

Enjoy National and religious festivals of January

Regards!
