R.I. PRESIDENT SPEAKS

Towards a more peaceful world

Dear Fellow Rotarians,

Seventy-two years ago, the United Nations was founded "to save succeeding generations from the scourge of war... (and) to practice tolerance and live together in peace with one another as good neighbors." Despite those worthy aspirations, and generations of investment in achieving them, the "scourge of war" is still with us. Last year, more than 102,000 people died in 49 armed conflicts around the world. Some of those conflicts were in their fifth decade or beyond. Terrorism, intolerance and extremism; the refugee crisis; and environmental degradation are now global challenges.

Collectively, we seem further than ever from achieving the goals that were set with such ambition and optimism in 1945. Yet hope endures, as long as there are people willing to work for a more peaceful future - not only through their governments, but also beside them and beside each other. Today Rotary is better placed than ever to have a real and lasting impact for peace: through our peace-focused programmes, such as Rotary Peace Fellows, and through every area of our service. Water, sanitation, health, education, and economic development are all interrelated and part of the complex interactions that

can lead to conflict-or avert it. To best leverage our service in all these areas, and to maximize their impact for peace, it is essential to understand these interactions and plan our service accordingly.

For these reasons, we have scheduled a series of six presidential peace building conferences between February and June in Canada, Lebanon, the UK, Australia, Italy and the United States. These conferences will focus not on peace but on peacebuilding: We will share ways that we can work to build peace through the service of our Rotary clubs and districts. Five of the one-day conferences will illuminate the connections between peace and another area of focus. The first conference, in Vancouver, BC, will explore the link between peace and another sphere of great concern to us in Rotary : environmental sustainability. You can view the full schedule and register at www.rotary.org/presidential-coference.

The goals are simple : to help Rotarians find new ways to advance peace through their service, to learn from experts, and to strengthen our abilities to build peace. It is my hope and belief that these conferences will help us move closer to a more peaceful world, through Rotary Making a Difference.

R.I. DIRECTOR SPEAKS

A Rotary-Bank partnership worth emulating

Dear Rotarians,

Twenty-seven years ago I joined Rotary. On my first day, I asked a senior Rotarian about the prefix in his name - what is PP? His simple answer made me understand Rotary. He said PP was a short form for Past President; but it also clearly defines the services of Rotary.... helping to lift people out of poverty; prevention of conflicts, wiping out diseases like polio, alleviation of hunger, and ultimately the promotion of peace, hygiene, health and all good things under the sky.

The well-known saying 'Prevention is better than cure' is true advice to anyone who loves to lead a happy and healthy life. Rotary is a service organisation, and not a 100 per cent charitable organisation. 'Prevention saves time, money and improves our happiness quotient and keeps us in good health. The best service of Rotary is to create awareness and take action. With support from our partners in service, Interact and Rotaract, we can jointly create and organise regular awareness campaigns on better and happy living.

For example, India is the diabetes capital of the world with more than 70 million people suffering from diabetes mellitus, the second highest number of cases after China. Recent studies show a rising diabetes epidemic across all classes, both affluent and the poor. The study reported high prevalence of diabetes, especially of undiagnosed cases, in the adult population, most of which had uncontrolled

blood sugar levels. This indicates the need for systematic screening and awareness programs to identify undiagnosed patients in the community and offer early treatment and regular follow-up.

Our Rotary clubs can organise diabetes detection camps in association with local hospitals and raise public awareness on its prevention and treatment. Let me recall how my fellow Rotarians, associated with the Lakshmi Vilas Bank, promoted an LVB-Rotary Project to serve the people of Karur. When the management of the Karur-based LVB decided to mark its 70th anniversary with a project to serve the people of Karur, affordable medical care became its choice. The Bank then approached the Rotarians of the Rotary Club of Karur who enthusiastically accepted the responsibility of running the medical centre. Since then the number of patients seeking free medical care has gone up to 100 a day, which amounts to over 300,000 patients a year. The club, with the support of LVB's annual contribution of Rs 500,000 and matching grants from The Rotary Foundation, buys medical equipment and medicines to run the medical centre. The LVB-Rotary Medical Centre is an outstanding model of what a well-organised and efficiently run corporate-Rotary partnership can achieve. All this thanks to the vision of the founders of the who laid down in the Articles of Association that one per cent of the profit will be spent on community development, almost 100 years before the idea of CSR was born.

Let us emulate this example and strive to create greater awareness of the importance of good health and preventive care within our communities, thus demonstrating this year's theme, Rotary: Making a Difference.

From Pen of the Editor.....

Mathew Arnold, a famous poet and critic, has said that true culture is one where there are impulses towards, "help and beneficence. "Where people are concerned for " diminishing the sum of human misery" and nourish " the noble aspiration to leave the world better and happier than we found it."

The month of December has been designated as the month of Disease Prevention and Awareness in Rotary. Rotary believes in mitigating human misery through its projects.

It has been said that a healthy mind is in a healthy body. A sick body cannot nourish healthy ideas as a sick body is concerned and concentrates in its own self. Rotary through its WINS programme hits at the root of the problem i.e to teach children value and importance of sanitation and hygiene. The purpose is to create consciousness in children towards handwash, clean water, clean toilets etc. At the same time Rotary has also connected WINS with female hygiene.

Polio-readication has become flag programme of Rotary and now through the literacy and Swachhata mission Rotary plans to prepare ground for a disease - free world. We know that disease results in misery, pain and poverty for millions of people worldwide. With this purpose Rotary Sets temporary clinics and blood donation centres. Not only this Rotary trains

volunteers to visit underserved areas when there is epidemic outbreak. Health education is a part of Rotary programme.

The clubs organize free health check-up camps to provide facility to the under privileged class. Let us join our hands to alleviate the suffering of the poor and the needy by sharing and caring. Without health life is not life. It is only a state of lounging and suffering. It has been well expressed. **"Health is the best contentment. *The greatest wealth faithfulness the best relationship.*"** (Buddha)

Friends! throw yourselves heart and soul into this mission of making the world disease free and transform it into a place of everlasting bliss. Friends! you do not know how your help touches the heart of a person writhing in pain. Moreover, you save a life by lending a supporting hand. Besides this the person whom you help blesses you from the innermost recesses of his heart. I would like to conclude with the following prayer.

Father God, We pray for all those who are facing sickness in their bodies. We ask that you would restore their health, soothe their pain and ease their worry. Give them your peace and comfort as they wait. ***In Jesus' name, Amen!***
